ENGAGEMENT PHILOSOPHY

Start free. Go deeper as the evidence warrants.

Clementis structures engagements so that every tier delivers value on its own — and makes the next step obvious only when it is justified. Pricing reflects senior-strategist engagement and is set by scope, complexity, number of target markets, and timeline.

Engagement tiers

Tier 0 · Discover

Free

Understand where your programme stands and where the gaps are.

- Translational Readiness Self-Assessment
- Insights & resource library
- 30-minute discovery call
- High-level directional guidance

Tier 1 · Foundational

\$500 – \$2,500 · fixed scope

Practical frameworks and a focused expert review to move quickly.

- Preclinical roadmap & SAR templates
- Go / no-go decision-gate framework
- IP-landscape starter & TPP template
- Focused mini-audit of one dimension
- Written recommendations

Tier 2 · Program

\$25K – \$150K · per project

A full audit or strategy engagement across the critical dimensions.

- Translational program audit & risk register
- Regulatory & clinical readiness plan
- IP landscape & freedom-to-operate strategy
- Market intelligence & positioning
- Go / no-go recommendation with evidence

Tier 3 · Advisory

from \$6,000 / month · retainer

Ongoing senior counsel as you execute toward launch.

- Continuous strategic advisory
- Partner & CRO identification
- Multi-jurisdiction launch coordination
- Priority access & regular reviews
- Value-based option available

Indicative rate card

Figures are in USD and reflect senior-strategist engagement. Final fees depend on scope, complexity, number of target markets, and timeline.

Engagement	Format	Indicative fee
Discovery call (30 min)	Video call	Complimentary
Translational Readiness Assessment	Self-serve	Complimentary
Framework / template (each)	Digital download	\$500 – \$1,500
Foundational framework bundle	Digital pack	\$2,500
Focused mini-audit (one dimension)	Fixed scope	from \$4,500
Translational program audit	Project	\$25K – \$75K
Regulatory & clinical readiness plan	Project	\$30K – \$90K
IP landscape & FTO strategy	Project	\$20K – \$60K
Strategic programme (multi-workstream)	Project	\$75K – \$250K
Advisory retainer	Monthly	from \$6,000/mo
Workshops / interim advisory	Day rate	\$2,500 – \$4,500/day
Value-based engagement	Outcome-linked	10 – 15% of value

Value-based pricing

For high-impact programmes, Clementis can price against the value created rather than the hours spent — typically 10–15% of the quantified gain, structured as an ROI multiple.

If a translational decision protects or unlocks a significant outcome — a successful registration, a de-risked raise, an avoided dead-end — the fee is set as a fraction of that value. This aligns incentives: Clementis succeeds when your programme succeeds. Terms are agreed up front with a clear method for quantifying the gain, and suit Tier 2 and Tier 3 engagements.

A NOTE ON REGIONAL SCOPE

Emerging-market engagements (Brazil, India, South Africa) may be scoped to local conditions. Multi-jurisdiction coordination is priced as a distinct, differentiated workstream — the coordination across FDA, EMA, ANVISA, PMDA, CDSCO and SAHPRA is itself the product.

How to start

Begin with the free assessment or a discovery call. From there, we scope a proposal with clear deliverables, timeline, and terms.
